

## **North Somerset tennis League**

### **Winter League Fixtures**

The fixtures for the Winter League will be generated automatically by the LTA online league software. It will work on the following principles

- Half of the fixtures to be scheduled before Christmas, and the reverse fixtures in the New Year
- Fixtures spread as evenly as possible throughout the season

The fixtures will be available at [Results \(nstl.org.uk\)](http://Results(nstl.org.uk)). When they are first published, they will be view-only, ie. you will only be able to look at them, not change any dates (nor enter any squads). This is because it then needs to be “converted” by the LTA. This opens up the league for everyone to input dates, results, squads etc.

NSTL Club Contacts will be advised as soon as the league is converted and ready for teams to make any changes.

#### ***What Team Captains should do***

Once the fixtures have been published, if either team wants to change the original fixture date, the captain of the team wanting to change the date initiates contact with the opposing captain:

- The 2 captains agree a new date.
- Until the league is converted, the home captain keeps a record of the changes to be made
- Once the league is converted, the home team captain updates the date (and time if necessary) on the online league.
- any fixture dates which need changing are to be done by 30th September, ready for the season start on 1st October
